

Prewarming capacity, at 150°C inner ingot temperature	150 kg/h
Loading area	o
Ingot places, standard	5
Ingot places, with extension	10
Ingot sizes	
length	500-700 mm
width	120 mm
height	50-80 mm
Dimensions MVE	
length	1700 mm
width	1040 mm
height	Depending on melting furnace
Empty weight	1000 kg
Connected load, electric	25 kW
Mains voltage	4x400 / 50-60 VAC/Hz
Air pressure for pneumatic	6 bar
Compressed air consumption	600 NI/h
Circuit elements	SSR-Relais
Control SIEMENS S7/300	x
Operator panel TP170	x
x = standard	
o = option
