

# <SINTAI CORPORATION PROFILE >

Sintai Corporation as for technical service and sell high-level die casting equipment. Our primary work is to fulfill frontline workers' need to make the high yield rate, high utilization and high-cycle efficiency, moreover we supply die cast equipment systematically, die cast technical service and localize after-sales service. About the consumable equipment, we agent for Japanese, European die casting machine, furnace, industrial robots, mold releasing fluids, mold flow software, high-level peripheral products and consumable etc. As for the technical service, we supply maintenance and repair for equipment, die cast consulting, advice for mold design, mold flow analysis etc. We also offer the service of exporting products that we assist customers to acquiring orders. Our headquarter sets up in Taipei. There are branches officers in Shanghai, Guangdong, Tokyo. We hold die casting seminars irregularly to feedback customers in each branch. Furthermore, we assist customers to upgrade their technical and equipment positively. We are sure that could be build up win-win in the long-term relationship.

## Die casting machine and peripheral equipment :

TOYO die casting machine, DAIKI aluminum furnace, RUACH magnesium furnace, ABB industrial robot, ADESTFAN mold flow software, CONMAX automatic melt supply system, Taiwan-made mold temperature controller, Taiwan-made vacuum machine, Easycast water-soluble mold-cleaner. Easycast high-pressure mold cooling device, Easycast PF machine.

## Consumable for die cast :

Moresco HANANO mold releasing fluids and peripheral product, Daichemi mold cleaner (SP, JELL), magnesium remover (QLH), NICHIAS fibrous unshaped heat insulation material, NISHIO ceramic ladles, tube for high pressure in mold, vacuum valve.

## Technical service :

maintenance and repair for import die casting machine and peripheral equipment, die casting consulting, die casting seminars, mold flow analysis, die cast equipment systems organize, and strengthens and simulation of die castings analysis.

## Foreign trade service :

die castings, mold and die casting equipment, parts etc.
