创新 高效 节能 CLEAN YOUR AIR

汉特与全球客户合作，致力于在最短交货期内提供全系列的过滤设备。
作为全球领先的过滤系统供应商和专家，我们为您提供各种工况下的空气分离和过滤技术方案。

完善的培训和人员配置，确保我们的团队训练有素，经验丰富，并尽其所能。
卓越的技术支持和响应机制，为您提供全方位的技术方案和售后服务。

Henteen offers the widest range of filters with daily shipments.
We are filtration specialists and have mastered the techniques of separation and filtration processes.
We implement all our technological and human resources in order to ensure that our teams are trained, experienced and perform to the best of their abilities.
Henteen is at your disposal throughout the year, in order to help you make the best choice in filtration for your process.

熔炉 - 布袋除尘系统

FURNACE
BAG DUST COLLECTION SYSTEM

- 紧凑型设计
- 过滤效率 99%
- 排放浓度小于 10 毫克每立方
- 耐高温滤料
- 变频控制系统
- PLC 可编程控制器

- Compact design
- Filtration efficiency upto 99%
- Emission concentration less than 10 mg/m³
- High temperature resistant filter material
- Frequency Conversion Control System
- PLC Programmable Controller

抛丸 / 打磨 - 湿式除尘系统

SHOT BLASTING / GRINDING
WET SCRUBBER SYSTEM

- 无需滤芯
- 安全处理易燃易爆粉尘
- 应用广泛
- 既具有除尘作用，又具有烟气降温 and 吸收有害气体的作用
- 净化效率高
- 排气量恒定
- 结构简单、占地面积小，投资低

- No filter elements required
- The safest solution when dealing with flammable/combustible materials
- Universal applications
- High-level separation combined with safe operating technique
- Low-maintenance

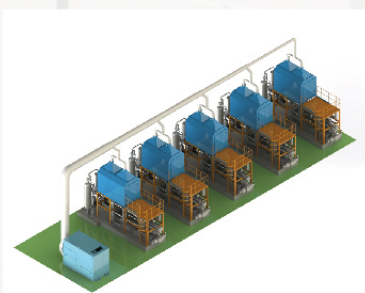

压铸脱模废气的系统解决方案

PRODUCT SOLUTIONS FOR
COLLECTING DIE CASTING MIST & FUMES

汉特提供全系列的抽排烟和烟雾收集系统，可用于安全控制压铸油雾和烟气。

下面提及的最常用于压铸行业的产品，我们的应用工程师可以帮助您选择合适的产品和适当的系统及附件，如 HRB 布袋除尘器，HEMS 过滤器，HOMS 过滤器，耐磨入口，排水回路，HEPA 高效过滤器，以高达 99% 的过滤效率确保符合您的具体应用和设施的需要。

Henteen offer a full line of fume extraction and mist collection equipment that can be utilized to safely control die casting mist, smoke and fumes. The list below indicates our products that are most commonly applied to die casting applications. Our application engineers can help you select the right product with the appropriate options and accessories such as HRB bag dust collector, HEMS filtration, HOMS filters, abrasive inlets, drain loops, HEPA after filters and more to meet your specific application and facility needs with 99% filter efficiency .

汉特，为您带来洁净空气

BRINGING CLEAR AND
PURE AIR TO ALL OF US

油雾过滤器优势

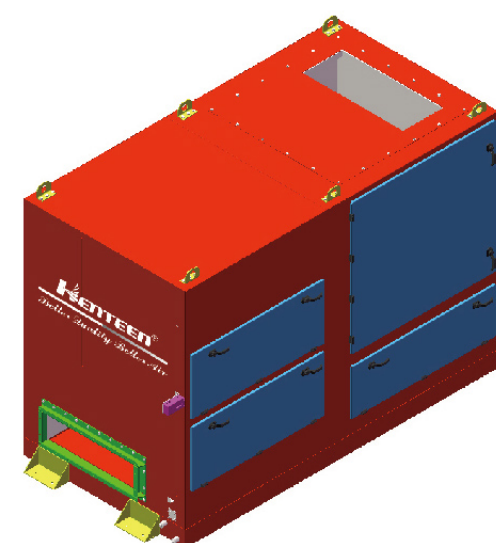

- 初级滤芯采用平板式金属丝网滤芯
- 核心滤芯采用玻纤及金属丝网混编
- 适用于高浓度及大流量之工业应用
- 使用耐腐蚀性材料（不锈钢 / 玻纤）
- 集成式的 PLC 控制系统，含标准工业通讯模块
- 科学的移动式集气罩设计供应及安装

维护的便捷性

- 滤芯可在超声波或高压清洗机中清洗
- 集成滤芯的自动喷淋装置，以确保滤芯的长寿命
- 根据经验每年维护 1 次

超长的使用寿命

- 不锈钢丝网滤芯的使用寿命 4-6 年
- 可选的高效过滤器 F9 的寿命时间长达 2 年

FILTER DESIGN

- Primary filter using flat metal mesh filter element
- Core filter using mixed glass fiber and metal wire mesh element
- Suitable for high concentration and large flow industrial applications
- Non-Corrosion resistant materials (stainless steel / glass fiber)
- Integrated PLC control system, including standard industrial communication module.
- Design, supply and installation of the scientific moving air collector

MAINTENANCE

- Demister can be cleaned in an ultrasonic bath or with a high pressure cleaner
- Integrated spraying system cleaning device
- Maintenance intervals according to experience 1 times per year

BEST LIFE TIME

- Life time of the Demister up to 6 Years
- Life time of the optional Fine-Filter F9 up to 2 years

**THANK YOU
FOR YOUR
CHOICE**

机床油雾收集系统

MACHINING OIL
MIST COLLECTION SYSTEM

- 过滤单元堆叠与级联设计
- 玻璃纤维滤芯
- 具有自清洁功能
- 提供终端安全 HEPA 过滤器
- 模块化设计的过滤器确保最大限度的过滤面积
- 高效过滤和超长寿命
- 滤芯更换方便，易于清洁保养。

- CASCADE DESIGN OF THE COLLECTOR WITH ASCENDING FILTER CLASSES
- Glass FIBER FILTER
- FLUID COLLECTOR
- OPTIONAL HEPA FINAL FILTER
- FILTER CASSETTE WITH MEDIA SEPARATORS FOR MAXIMUM FILTER AREA.
- HIGHEST SEPARATION PERFORMANCE AND ULTRA-LONG LIFETIME.
- CLEAN MAINTENANCE, EASY FILTER CHANGE.
